ADJOLOU Dondah Chaminade

Upon completing my Information Systems degree at Lomé Business School, I developed a strong passion for technology and a keen interest in management and data analysis. Proficient in web development, I am eager to leverage my expertise in innovative projects and tackle complex challenges, all while remaining abreast of the latest technological advancements.

Experiences

2023 - 2024
TCD | Google Developer Group Lomé | Tdev | 10,000 developers
Volunteer Graphic Designer / Logistician / Community Manager

Design of the posters for the Tech Communities Day event, which united all local tech communities.
Responsible for logistics, distributing invitation cards to various sponsors. Welcoming guests and providing guidance.

September 2024
C'KDO Microfinance | Atakpamé
Database administration

Incorporating archival information into the database. Refining and purifying the data.

July 2024
GDSC Lomé Business School | Lomé
Volunteer Graphic Designer / Logistics Coordinator

Design of the posters for the Tech Communities Day event, which united all local tech communities.
Responsible for logistics, distributing invitation cards to various sponsors. Welcoming guests and providing guidance.

May 2024 - June 2024
Lomé Business School | Avenue Jean Paul II, Lomé, Nukafu
Backend Developer

Development of a RESTful API in PHP for the EduCheck project, facilitating CRUD operations using PDO for a MySQL database. Implementation of business logic for user roles (administration/teacher) and integration with a frontend interface utilizing HTML, CSS, and JavaScript.

April 2024
SEIC Lomé Business School | Lomé
Frontend Engineer

Implementation of the model for a website that connects project leaders with business angels. This project, developed in a remarkable timeframe of less than a week using Bootstrap and JavaScript technologies, enabled my team and me to advance to the semi-final phase.
